1. Preparation of Lesson Plans

In both Semester 1 and Semester 2, ICT (Information and Communication Technology) is a fundamental subject. In Semester 1, it is taught as a theoretical subject, while in Semester 2, it becomes a practical subject. Students are trained to create ICT-based teaching aids, regardless of their specific pedagogy. The primary goal is to equip future teachers with essential ICT skills.

During their internships, students successfully utilized various ICT tools in both offline and online teaching-learning processes. These tools included PowerPoint presentations, videos, smartboards, projectors, e-books, educational websites and more.

3. Effective Use of Social Media, Learning Apps, and Adaptive Devices for Learning

Students are trained in the ICT (Information and Communication Technology) subject, gaining hands-on experience in creating email IDs, presentations, word documents, blog writing, and more. This training enables them to prepare e-content and share it with their students using their ICT skills.

During their internships, students utilized various educational websites and applications, such as YouTube and other educational websites, to enhance the learning experience of school students. They conducted online sessions using platforms like Google Meet and Zoom to include remote students alongside those attending in person. Additionally, students were integrated into respective class and subject WhatsApp groups to interact with students and provide them with e-educational materials.
