5. Student Mentoring

The alumni have an active role in student mentoring providing guidance, support and encouragement and to help them achieve their academic and professional goals. The alumni provide group mentoring to the students of first and second year and sometimes if required one-on –one mentoring is advised. Student mentoring is a supportive and often transformational relationship where alumni provide guidance, advice and encouragement to the existing batch students and fosters personal and academic growth and development of essential life skills.

The alumni advise the students to follow study techniques, improve study skills, time management and to understand the course material. The alumni share their own experience on their path for professional growth, their struggle and the hurdles in reaching their paths. They advised the students to set in their career paths, and to encourage the students to have personal growth and to develop self-confidence.

The students are asked to reflect on their progress and also to have a constructive feedback by the peer mentoring and by the teaching fraternity. The students were asked to serve as a positive role model in their professional life and thus a successful mentoring can build a rapport with the students and develop the bond of trust and hence can develop a healthy communication contributing to a significant enhancement in student's performance and student's educational experience and future prospectus.

7. Placement advice and support

Seeking advice and support from alumni can be extremely beneficial when preparing for job placements. Providing effective placement advice and support for the students and recent graduates is essential in helping students transition from education to the workforce.

The placement cell provides advice and support to each student of the institution for attending the interview scheduled by the placement cell. Some of our alumni who are working as the heads of the institutions recruit the eligible and qualified candidates for the post of teachers through scheduling interviews through our functioning placement cell and some of our alumni who are working as teachers take an initiative in sending the job links and paper cuttings in the whatsapp group chat helping the needy graduate get recruited and get benefited.
